

WIRELESS NETWORK

COMMISSIONING AND INTEGRATION SERVICES

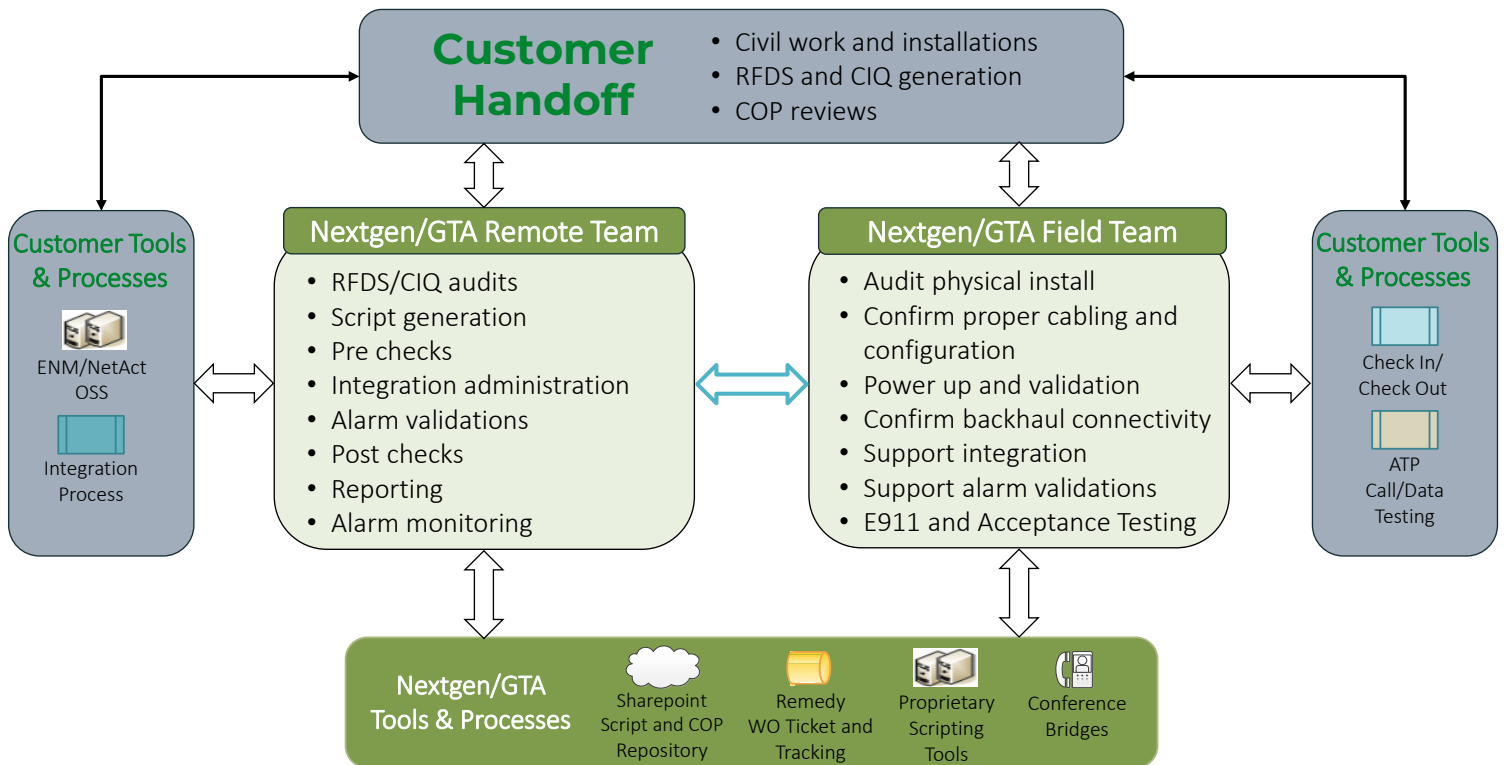

Commissioning and Integration (C&I) Services have been a core competency of ours for many years. We have supported the configuration and turn-up of new cell sites, carriers, and technologies for macro and small cell applications. Our team has touched more than 75k cell sites performing a variety of tasks, such as the following:

- Script Generation and Loading
- SW Upgrades
- New Site Build Integration
- Carrier Adds/ Capacity Upgrades
- Cabinet Swaps
- Card/SFP Swaps
- CSR Configuration
- Backhaul Migration
- E911 Testing
- External Alarm Configuration/Testing
- Other Specialized ATPs
- RAN and BH Troubleshooting

OUR TEAM HAS TOUCHED >75K CELL SITES

A project management team supports our C&I program with decades of experience and knowledge of industry best practices and a technical management team that develops our internal MOPs and training and provides Tier 2/3 technical support for our project staff. We offer both remote and field-based services and can provide either (to complement a customer's existing team) or both (to establish an end-to-end custom solution). Our remote and field engineers are well-established and experienced with current wireless products and technologies.

SIMPLE AND CUSTOMIZABLE ENGAGEMENT MODEL

CASE STUDIES

Engagement	Duration	Key Project Highlights
Remote Network Integration Center	1 Year and Ongoing	<ul style="list-style-type: none"> Milestone-based services for Tier 1 mobile operator 100+ Resources supporting this national program 600+ RAN site integrations/aggregations per month 300+ Backhaul or CSR integrations per month 1200+ Macro site decoms per month
End-to-End Field + Remote Integration	18 Months and Ongoing	<ul style="list-style-type: none"> Milestone-based services for a tower company 40+ Resources supporting this program 20+ Markets 150-200 RAN site integrations/aggregations per month
End-to-End Field + Remote Integration	3+ Years	<ul style="list-style-type: none"> Staffing and milestone-based services for a Tier 1 mobile operator 80+ Resources supported this national program 10's of thousands of cell site RAN and Backhaul integration assignments
